What is VT?

VT is a form of muscle testing that, contrary to popular belief, does not rely on any kind of electrical equipment!

What you will learn on this course

Discover everything that may be on other courses and more...

Learn how to easily diagnose tapping sequences that can help the most complicated cases and identify food sensitivities and toxins. Then with these skills discover how to work with anyone at anytime anywhere in the world over the telephone and without the need of an office or therapy room.

You'll also learn Vibrational Repatterning frameworks that will take you way beyond what others do in just getting rid of fears and traumas; you'll be able to dismantle complex problems that VT on its own may struggle with; establish what needs to be done, in what order and then successfully treat it.

Because of the nature of this course it is suitable for everyone with some level of TFT or EFT understanding or training. We'll teach you everything you need to know and if you are already experienced, we'll share with you new and easy ways to be an even more successful VT practitioner.

Your Principal Trainer

Chris Milbank, VT

Chris is a highly experienced and respected VT practitioner and trainer who is also a former director, vice-president and president of the ATFT. In this capacity he has taught the highest levels of TFT around the world and has taught TFT to a vast number of people.

With this success, Chris wanted to help even more people however while out in Africa he realised that the only way more people could be helped with TFT was by more practitioners being trained to use the most effective TFT techniques. Sadly, his requests to do this were refused and with regret, he left the ATFT to follow his own path.

Because of this, these techniques are now available to you at affordable prices.

Helping others is his life's passion and to do so he studied and learnt from the best in the business, the leaders and developers of some of the most advanced techniques in human change. He has owned Therapy Colleges, travelled the world, been part of several charity missions and spends any spare time learning and developing new techniques. As you can imagine, he knows a thing or two and is great at what he does!

Through all of this Chris remains a very down to earth person with a wonderful sense of humour. Together with his knowledge, skill and caring personality, he help makes each course an exciting and enjoyable adventure.
