Welcome to this Unique Event

Tap into your potential

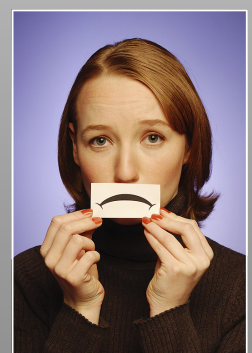

This is your opportunity to discover one of the most effective treatments in the world today for conquering emotional distress of any kind ...

Thought Field Techniques (TFT)

Back in 1979, an American psychologist discovered that by tapping on energy meridian points of the body that all kinds of negative emotions could be eliminated quickly. This amazing technique became known as Thought Field Therapy.

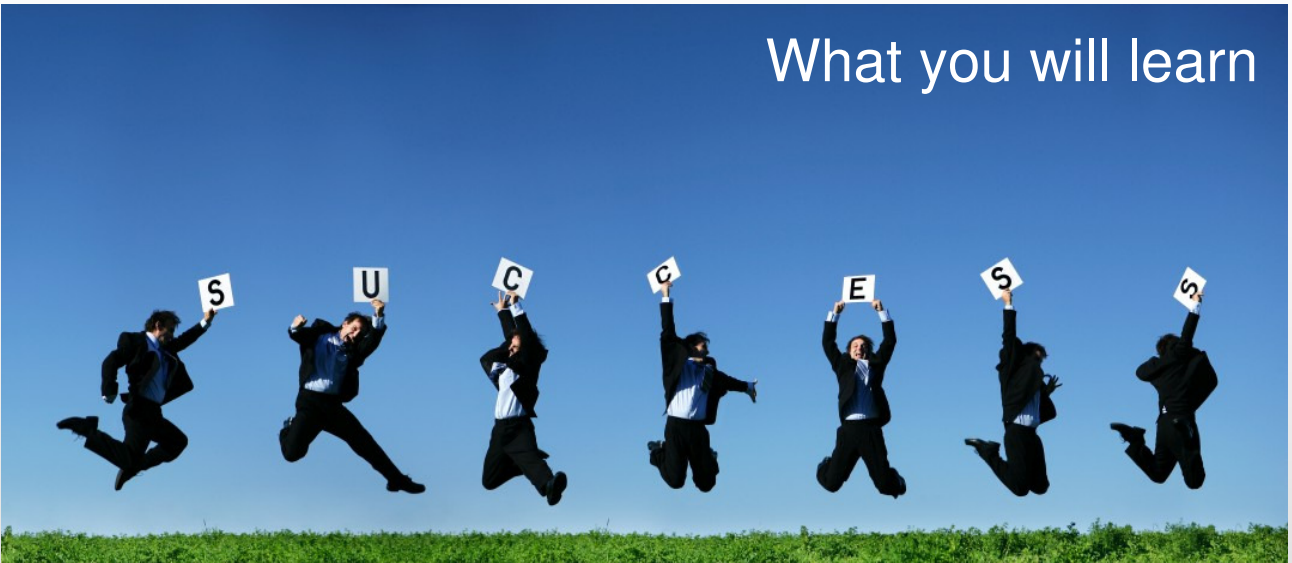

As the number of people who learnt Thought Field Therapy grew so did the possibilities. Some possibilities were adopted by the original organisation and others were not leading to other therapies being created.

Infinite Mind has taken the best of the energy psychology techniques and therapies and brought them together as Thought Field Techniques. The Primary course is where you can learn the best practical skills to help you move forward personally and professionally.
